

REPORT OF BRIDGE SURVEY

INSTRUCTIONS: 1. Submit this report to the Auxiliary Coordinator as soon as possible after conducting the survey.
 2. The best time to survey bridges is shortly before sunset so you can observe any hazards or discrepancies before dark, then observe the lights after dark.
 3. If conducting the survey by land, respect all property rights. **DO NOT TRESPASS.**
 4. Auxiliarists do not have law enforcement authority. Take care that your survey is not interpreted as a law enforcement action.
 5. Minor discrepancies (e.g. one light out, clearance gauges hard to read) should be reported by mail. More serious problems (e.g. most or all lights out, hazards to navigation, bridge malfunction) should be reported to the nearest Coast Guard Group Office by telephone or radiotelephone. If in doubt, report it.

NAME OF BRIDGE BLACKPOINT RY BRIDGE	LATITUDE 38 06.7' N	LONGITUDE 122 30.1' W
NAME OF WATERWAY PETALUMA RIVER	MILES ABOVE MOUTH 0.8	TYPE OF BRIDGE SW
