Enabling Objectives and Measures of Performance		
MUST ACHIEVE 100% OF CRITICAL STEPS AND 70% OF NON-CRITICAL		
1001.2	<i>Provide First Aid for casualty with a Sucking Chest Wound</i>	
1001.2.1	Was prompt self-aid/buddy-aid started?	Yes No N/A
1001.2.2	Was the casualty reported? If so, a complete and accurate plot of the casualty must be maintained on the bridge, in repair lockers, DCC, and BDS's.	Yes No N/A
1001.2.3	Did watchstanders obtain any needed assistance from other watchstanders or request stretcher bearers if on-scene personnel can not adequately handle the casualty?	Yes No N/A
1001.2.4	Were watchstanders familiar with the location and contents of the closest first aid supplies in their area?	Yes No N/A
1001.2.5	Did watchstanders recognize the need to plug the wound?	Yes No N/A
1001.2.6	Was the wound properly dressed? a. Was blood and sweat wiped from around the wound? b. Was the wound covered with a piece of plastic and not an ID card? c. Was the plastic covering secured on three sides with tape leaving the outside or bottom edge open to allow for any drainage? d. Was the plastic seal reinforced with a battle dressing?	Yes No N/A
1001.2.7	Was a head to toe check for further injuries conducted? If an exit wound is found on the back, it should be covered with a piece of plastic, taped on all four sides, and reinforced with a battle dressing.	Yes No N/A
1001.2.8	Was the casualty positioned properly and treated for shock? The casualty should be positioned lying on their side with the wounded side down.	Yes No N/A
